Reasons for Allowance

Claims 1-21, 23-35, 37-41, 50 & 55 are allowed.

Applicant has amended all independent claims to include the language of canceled claim 36 which was indicated as being allowable in the previous office action. Applicant has further amended previously withdrawn independent claim 15 which was withdrawn in response to a previous restriction requirement. The allowable subject matter of canceled claim 36 has been added to this claim as well as so is also allowable.

The following is an examiner's statement of reasons for allowance:

Claims 1, 8 & 15 are allowable because the prior art of record does not teach or fairly suggest a high frequency power supply system comprising all the features as recited in the claims and in combination with a determination prevention unit for preventing the anomaly determiner from performing a determining operation upon commencement of a power supply operation of the high-frequency power source or upon a change made on an output power value setting during the power supply operation, until a predetermined time period has passed.

Claims 2-7, 9-14, 16-21, 23-35, 37-41, 50, 55 & 56 are allowable as they depend from claims 1, 8 & 15, which are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SCOTT BAUER whose telephone number is (571)272-5986. The examiner can normally be reached on M-F 9am-6pm.
